## Ponderosa VFD September Round Up

September means back to school and SAFER driving requirements. We never know when a child will run out in front of us. Please take additional precautions.

We ask that you do your part to prevent fires. Cooking fires are still our number one cause of devastating fire. Never leave your stove unattended, for any reason (turn it off if you are distracted). Also, consider inspecting your vent hood ductwork to assure there is no build up of grease from the many years of use.

Driving and cell phones continue to cause concerns. Please consider less or no use while driving. Recent studies are beginning to show a marked increase of cell phone use and crashes.

We have been active in the FM1960 medians project. Our position is very simple; while medians will reduce the number of motor vehicle accidents, there is the potential that gridlock will increase emergency service response time. We are asking for TxDot to improve traffic signal timing and coordination in conjunction with the project.

And, don't forget to plan for a hurricane. While we may not have the significant winds to contend with, rain will be an issue. Go to [www.hcoem.org](http://www.hcoem.org) for a host of information and if you are a special needs (evacuation) person, call 2-1-1 for further information. Visit our website [www.ponderosavfd.org](http://www.ponderosavfd.org) for the latest hurricane preparedness article. We hope you enjoyed our recent semi-annual newsletter.
